                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   seq length: 0

Sequence 1. Application US/09321589

| Sequence 1. Application US/09321589 |
| Patent No. 6498244 |
| GENERAL INFORMATION: |
| APPLICANT: PATEL, SAILL D. |
| APPLICANT: PATEL, SAILL D. |
| APPLICANT: WCARTHUR, JAMES G. |
| TITLE OF INVENTION: ADENO-ASSOCIATED VIRUS CAPSID IMMUNOLOGIC DETERMINANTS |
| FILE REFERENCE: 39672 |
| CURRENT APPLICATION NUMBER: US/09/321,589 |
| CURRENT FILING DATE: 1999-05-28 |
| NUMBER OF SEQ ID NOS: 1 |
| SOFTWARE: PatentIn Ver. 2.1 |
| SOFTWARE: PatentIn Ver. 2.1 |
| SOFTWARE: PATENT OF A SECONDARY CONTROL OF A SECO
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          DЬ
